

TOYOTA

LEAD THE WAY

FORTUNER

THE ALL-NEW FORTUNER. THE LUXURY OF FREEDOM.

MODEL SHOWN 2.7 VVTi RB AT

REIMAGINED FROM THE GROUND UP,
THE ALL-NEW TOYOTA FORTUNER
IS A BLEND OF LUXURY AND CLASS-LEADING
OFF-ROAD CAPABILITIES.

Under the sleek new design resides a blue-blooded adventurer.

With off-road credentials second to none and a drive that needs to be experienced to be believed, it's time to re-examine what you think you know about the Fortuner and discover THE LUXURY OF FREEDOM.

OPEN THE DOORS TO A WHOLE NEW LIFESTYLE

The all-new Fortuner has arrived – and it's more luxurious than ever before.

Here is an SUV that's going places. Comfort and capability combine to create a vehicle that looks as good in the urban jungle as it does on a distant mountain pass. With high-quality finishes you can both see and feel, a bold new grille, an elegant and impressive interior, extra storage and completely redesigned engines – including a new 2.8 litre diesel and 2.7 litre petrol – you now have the luxury to choose the perfect Fortuner to suit your lifestyle.

If you've been looking for a dynamic, fuel-friendly SUV that still delivers on torque, power and looks, then the new Fortuner is the answer.

GET THERE IN STYLE

MODELS SHOWN 2.7 VVTi RB AT

Whether you have a clear destination in mind, or you're taking the long way round, the incredible new engines available in the Fortuner will ensure you always have enough power to get there. And there are enough luxurious extras to make sure you get there in style.

Thanks to recent technological developments, the new diesel engines have a smaller capacity with higher torque. The 2.4 litre engine has a torque of 400 Nm @ 1600-2000 r/min and a power output of 110 kW @ 3400 r/min. The new 2.8 litre auto engine has a torque of 450 Nm @ 1600-2400 r/min and a power output of 130 kW @ 3400 r/min, while the manual has a torque of 420 Nm @ 1400-2600 r/min and a power output of 130 kW @ 3400 r/min. Once again the driver is on the winning end, as these innovations translate into more than just better power, but lower fuel consumption too.

The petrol motor line-up has been expanded to include a new 2.7 litre petrol engine with a towing capacity of 2.5 tonnes, torque of 245 Nm @ 4000 r/min and a power output of 122 kW @ 5200 r/min. This petrol option operates off the new six-speed auto transmission, which has numerous advantages, including lower fuel consumption and a more eco-friendly drive.

GEARING UP

What does the road ahead look like?

No matter where you're headed, there is a range of options available to you. The choice is yours: 2x4, 4x4, six-speed manual or auto. And if you choose a 4x4, you now have a conveniently located electronic switch that replaces the range change lever, allowing you to change between 4WD, 4WD LOW and 2WD with a flick of the wrist.

When on the open road, you're in for smooth sailing – the addition of the sixth gear in both the manual and auto options means the gear ratio spread has been optimised and cruising revs per minute have been lowered.

Engine sound has also been reduced, meaning a much quieter drive, ideal for exploring the great outdoors. As part of this advancement, your first gear is now sharper and shorter, which bumps up the take-off power and increases the pulling power – just right for towing. Not only does this mean less engine noise, it's also a way to better fuel economy – perfect for you and the environment.

For those who desire efficiency, Eco Drive Mode can be activated at the touch of a button. When the vehicle is being driven efficiently, the Eco Lamp on the Multi-Information Display will illuminate to let you know that you're on the right track.

While moving up or down the gears, the new Intelligent Manual Transmission *(IMT) anticipates your changes then matches the engine speed to the transmission speed, preventing jerks and drastic drops in speed after gears are changed, resulting in an even rev count, seamless shifting and achieving high-fuel efficiency.

All models come with cruise control – perfect for trips out into the country, allowing you to sit back, admire the view and relax on longer stretches of road.

**Only available on the 2.8 MT models*

WHEN THE GREAT OUTDOORS

No matter where you go and whatever the weather – mountain pass or overpass, torrential downpour or a desert sandstorm – you're always comfortable and in control in your Fortuner.

Bumpy outrides are history. Improved suspension offers more stability and better handling responses. The size of the shock absorbers has also been increased, giving you more comfort over small vibrations, and a repositioned lateral rod reduces movement when exploring rough roads.

But the advancements go much deeper than the upgraded suspension. At the core of the Fortuner's off-road prowess is its frame. The entire frame structure has been redeveloped, improving torsional and bend rigidity, ensuring durability, drive quality, comfort and, most importantly, safety.

The Fortuner is equally at home navigating the tight turns of a steep overgrown path leading to a secluded cabin, as it is manoeuvring down a white-knuckle rocky descent.

Hill-Assist Control (HAC) detects when you're on a slope and automatically engages so that the vehicle doesn't roll back.

To prevent the wheels from locking up on tricky downhills in the 4x4 models, the **Downhill-Assist Control* (DAC)** system takes command of the vehicle's **Anti-lock Braking System (ABS)**, controlling brake pressure in situations when engine braking isn't enough.

To make sure you stay cool and in control, the radiator has been improved to balance the power of the new engines. This reduces the risk of overheating – no matter how severe the environment or how big the load being towed.

Towing capacity has been increased to a maximum of three tonnes*, and when under load, **Trailer-Sway Control (TSC)** suppresses movement between the Fortuner and whatever you're towing, keeping you safe and in control.

*Only available on the 2.8 4X4 MT, 2.8 4X4 AT and 4.0 4X4 AT

FREEDOM

— TO EXPRESS —

MODEL SHOWN 2.7 VVTi RB AT

MODEL SHOWN 2.7 VVTi RB AT

Whether you're gently crunching over imported gravel alongside manicured lawns, or blazing a path over rocks up a forgotten mountainside, with the Fortuner you will always arrive in style.

Sophisticated yet resilient. Refined yet powerful. From the 18-inch alloy* wheels to the new grille, the Fortuner expresses the dual nature of today's modern lifestyle. While the vehicle is still known for its unmistakable off-road superiority - and of course, quality, durability and reliability - its exceptional new style now also gives you the freedom to be seen and admired while out on the town.

With its new refined body, there's an unmistakable urban appeal to the latest incarnation of the Fortuner. A redesigned front grille gives it a more cosmopolitan look: the upper edges of the grille have an added curve with a steeper slant, making the front design even wider and more striking than before.

** 18" Alloy wheels are available on the 2.8i and 4.0i only*

MODELS SHOWN 2.7 VVTi RB AT

A STEP ABOVE

Towering above the grit and the grime, the high body axis gives you an elevated viewpoint. The design lines run over the flared front and along the doors to meet at the rear fenders. From any angle, the sculptured surfaces merge and change to create a seamless flow.

To light your way, the 2.4 litre and 2.7 litre Fortuner models have bi-halogen headlamps and fog lamps at the front, LED rear combination lamps and an LED high-mount stop lamp at the back. The headlights now feature an auto light control system with Follow-Me-Home lights that allow for the headlamps to remain lit for 30 seconds after parking, illuminating your path to your destination for added safety. These larger, stylish light clusters are augmented by colour-coded exterior mirrors.

On the 2.8 litre and 4.0 litre models, lighting is taken care of by LED headlamps in the bold new chrome grille, LED rear combination lamps, LED front fog lamps and striking Daytime Running Lights (DRL).

The colour-coded retractable side mirrors on all Fortuner models have integrated turn signal lamps and are electronically adjustable.

THE LUXURY OF SPACE

THE SEATS ARE IN A 60:40 COMBINATION

Nothing evokes a greater feeling of freedom than space. Space to move. Space to explore. And of course, space to stow all your gear. With boot capacity large enough to accommodate your riding tack, golf clubs or sailing togs, you'll have no hassle transporting whatever you need to enjoy the great outdoors. In the glove box of the Fortuner, you'll also find a front cooler box, chilled to just the right temperature to store your roadtrip snacks. The 4.0 litre and 2.8 litre models are equipped with a power back door system that can be opened and closed electronically from the driver's seat or the wireless key. The power back door has a memory function, which allows users the option of storing an automatic stop position for each time the back door opens. And to ensure you and your passengers' safety, a jam-protection function detects obstructions through changes in pulses from the motors when opening and closing the back door.

REAR SEAT CUP HOLDERS

ONE-TOUCH TUMBLE SLIDE REAR SEATS ALLOW FOR DIFFERENT SPACE CONFIGURATIONS

FIVE-STAR FREEDOM

Equally at home under the stars as it is under big city bright lights, the refined elegance of the new Fortuner that flows from the inside to the out is immediately apparent. Everything has been carefully considered, from the bold, highly stylish design to the sophisticated technology incorporated throughout. The attention to detail is apparent. Thick metallic accents combine with wood grain-patterned ornamentation, which further expresses the vehicle's personality. The overall design comes together to evoke a feeling of THE LUXURY OF SPACE. Once inside, passengers and the driver have ample room to stretch out and enjoy the sensation of comfort and prestige.

THE LAP OF LUXURY

The interior finishes are also of a superior nature. Stylish leather seats are complete with intricate stitching detail. The doors on all models are finished with a leather trim. The seats are in a 60:40 combination; with the addition of one-touch tumble slide rear seats. In keeping with the convenience of good design, these third-row seats can be folded using one touch, making it easy to free up space for luggage or to create a row of seats for extra passengers.

The steering wheel column can also be personalised: a telescopic function has been added so that the column can be moved to suit your driving style. From the driver seat, you can also keep an eye on the rear-view monitor so that you know exactly what is going on behind you.

THE CENTRE OF ATTENTION

Clean, slick and modern – the newly streamlined dashboard and centre console lights up with an audio and display operating system that's guaranteed to get attention.

A new high-definition colour Multi-Information Display (MID) has been added and has all the information you need. From frequently checked items such as internal temperature, speed and trip information, through to menu and display options. All MID content can be controlled via switches conveniently located on the steering wheel.

Bluetooth comes standard across the range, while the 2.8 and 4.0 litre models come standard with a touchscreen audio-visual navigation system.

Passengers who feel like watching a movie or TV series during their travels can do so via an entertainment system that features a large touchscreen DVD system that can be operated through the auxiliary or USB ports.

INTERIOR SHOWN 2.8 GD-6 4X4 AT

PUSH START SYSTEM

BEING SMART ABOUT SAFETY: THE LUXURY OF SAFETY

CHILD RESTRAINT SYSTEM (ISOFIX)

Safety is always a top priority for Toyota.

The Fortuner comes equipped with a Push Start system. This starts the engine at the push of a button, ensuring that there is no lag in getting your vehicle on the road.

Once you're moving, Auto Door Lock is activated and locks the doors to prevent entry from the outside. To protect your most precious cargo, Child Lock ensures that there are absolutely no mishaps with back-seat, passenger door safety. On all models, anti-theft systems operate silently in the background. The anti-theft system features include an independently powered siren, an advanced immobiliser, as well as an ultrasonic glass-breaking and intrusion sensor.

It's like a luxurious coat of armour. Recent technological updates have resulted in an overall strengthening of the Fortuner's frame. High-tensile-strength steel sheets and supplementary materials have been incorporated throughout to improve safety. All together, these impact-absorbing and high-strength structures help reduce driver and passenger injuries. Newly installed **ISOFIX seat belts** ensure that the point of tension is relative to the impact, while the **Anti-lock Braking System (ABS)** and **Electronic Brake-force Distribution (EBD)** act to stabilise the vehicle.

In an emergency, there are up to seven airbags. Driver, front passenger, curtain shield, driver-knee or side airbags are activated depending on the situation. And, when in transit, **Vehicle-Stability Control (VSC)** is there to minimise the chance that any of the above becomes necessary.

SUSTAINABILITY

Fortuner drivers share a passion for adventure and the beauty of the great outdoors. That's why we're dedicated to preserving the environment for future generations. The fuel-efficient engines of the Fortuner range help reduce CO₂ emissions and the carbon footprint of the vehicles. Plastics that are highly recyclable are used in the instrument panel, door trims and the majority of the interior and exterior components. The plastic components have also been uniquely designed so that they are easier to dismantle for recycling.

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS CHALLENGE

By owning a Toyota, you will be contributing to our challenge to reduce vehicle CO₂ emissions by 90% in comparison to 2010 levels, by 2050. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS CHALLENGE

Our strategies to achieve zero CO₂ emissions at our plants are:

- 1) Developing and introducing low-CO₂ technologies with ongoing "Kaizen".
- 2) Adopting renewable energy sources and utilising hydrogen energy.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEM

We have been working for 40 years on our resource recycling challenge. We will continue working on the challenge of establishing a recycling-based society by rolling out the technology and systems evolved in Japan, to the world.

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS CHALLENGE

Your purchase is lending a helping hand to Toyota's efforts to reduce to zero, not only CO₂ emissions produced in travelling and manufacturing, but all CO₂ emissions included in the process of materials production, disposal and recycling of vehicles.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environment is important. We have two measures to achieve this. These are the comprehensive reduction of the amount of water used, and comprehensive water purification and returning it to the earth.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

At Toyota, we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. We are also promoting several activities across regions and the world to establish a society where humans and nature coexist in harmony.

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/genuine

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, Genuine Parts are essential in maintaining the safety and reliability of your vehicle. **Genuine Parts** comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Fortuner without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 6 or 8 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 200 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Fortuner by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY ✓ GUARANTEED QUALITY ✓ PEACE OF MIND

Download the **MyToyota** App from the [Google Play Store](https://play.google.com/store/apps/details?id=com.toyota) or the [App Store](https://apps.apple.com/za/app/mytoyota/id1450854444) to receive the latest Toyota news, keep an eye on your vehicle's finance and book your vehicle for a service. You can also book a test drive or arrange roadside assistance, all on your phone.
